1-Gal Bottle 4/Case

## Advantages of using a Dispensing System

- ❖ Automatic dispensing
- ❖ Customized dilution to control your costs
- ❖ Closed dispensing — no manual mixing of chemicals
- ❖ Compact form — up to 4 products per dispenser
- ❖ Fast, one-handed filling of spray bottles or buckets

# Express Systems industrial strength products make it easy to keep linens and towels looking and feeling their best.

## STAIN MANAGEMENT

### RELEASE, P.O.G SPOTTER

RELEASE, P.O.G SPOTTER helps remove all common spots such as paint, oil, grease, lipstick, ink (except permanent), tar, pitch, coffee, blood, chocolate, fruit stains, mustard, catsup, etc. without harming the most delicate fabrics.

### BLOODGO

BLOOD GO is a unique blend designed specifically for blood and protein based spots and stains.

### CLEAR SPOT

CLEAR SPOT is specially formulated to help keep spots from setting and turning into permanent stains. CLEAR SPOT works on most fabrics stains caused by grease, blood, lipstick, food, etc.

### RUSTGO RUST REMOVER

For linen with rust or iron stains.

## DRY LAUNDRY PRODUCTS

### POWDER SUDS

Maximum efficiency powder laundry detergent formulated to protect against linen tensile strength, color loss and provide maximum whiteness retention.

### STAIN BUSTER HD

Heavy-duty stain remover formula

## LIQUID LAUNDRY PRODUCTS

### LS0 LIQUID LAUNDRY BREAK

LS0 is a special blend of alkalis and phosphates that aids normal laundry detergent in cleaning grease and oils from heavily stained linens.

### LS1 DETERGENT

LS1 Detergent represents the latest in laundry cleaning technology. It is a liquid detergent formulated specifically for use in automated liquid laundry dispensing systems. This premium formulation chemically wets and penetrates fabric, lifts soil, emulsifies grease and oils and includes a powerful high sudsing detergency which prevents soil redeposition regardless of water conditions.

### LS2 LIQUID LAUNDRY CHLOR

LS2 Liquid Laundry Chlor is a specially blended heavy duty laundry bleach. This product is excellent for controlled bleaching of linens.

### LS3 SOUR/SOFT

LS3 combines three functions in one easy product. This unique premium formulation includes the highest quality souring agents, excellent cationic fabric softeners and optical brighteners to leave linens soft, bright and static free.

### LS6 OXYGENATED ALL-FAB BLEACH

LS6 Oxygenated All-Fab Bleach is for today's modern fabrics that require a safe bleach agent. It helps prolong and brighten most washable fabrics. ALL-FAB even helps revitalize the color of dull and faded fabrics. Use it in the place of chlorine bleach. Add it manually or with automatic liquid feed systems. ALL-FAB is compatible with detergents and soaps including enzyme products.
